

DPB-140型平板铝塑包装机

DPB-140 Flat-plate Automatic Blister Packaging Machine

产品介绍:

本机是为医院制剂室、小型制药厂、保健品厂设计的新产品，具有机型小巧、操作方便。平板成型泡罩挺括，平板热封网纹均匀，行程可调，换模具方便，适应各种形状大小版块。

This is new product designed for dosage room of hospital, medium-size and small-size pharmaceutical plant, health care product plant. It has small size of body, ease of operation, full purpose, stroke can be adjustable, long durability etc. much performance. It widely used in aluminum plastic pack for medicine, foodstuff, electron component etc.

性能特点:

- 行程可调，冷冲成型模具，模具定位肖定位，更换模具方便，对版准确。
- 人机界面，PLC可编程控制，变频无级调速（选配）。
- 汽缸热封，停机热封模自动分离、不会烫伤包装物，延长机械使用寿命。
- 配备切线压痕、打批号，废料回收装置。
- Travel scope can be adjusted.
- Mould is located by locating groove, so that it's easy to change mould. Adopt cool-forming moulds (Optional) .
- Speed is shifted by step-less transducer. Adopt the interface of human-machine and PLC programmable controller.
- The heating moulds will automatically separate when the machine stops, which contributes to protect the material between them and extend the machine's life.
- Adopt the equipment of trace pressing, batch number printing and scarp-collecting.

技术参数Main Technical Parameter

冲裁次数 Cutting Frequency	20-40times/min
生产能力 Capacity	4800 strip/h
最大成型面积及深度 Max shaping areas and depth	130 × 100 × 26mm
行程范围 Stroke	20-120 mm (可按用户要求设计can be manufactured as user' s requirements)
标准版块 Standard Sheet	80 × 57 mm (可按用户要求设计can be manufactured as user' s requirements)
空气压力 Air Pressure	0.4-0.6mpa
电源总功率 Total power	380V/220V 50HZ 3.2KW
主电机功率 Total power	1.5kw
PVC硬片 PVC hard pieces	0.15-0.5 × 140 mm
PTP铝箔PTP Aluminum Foil	0.02-0.035 × 140 mm
透析纸 Dialysis Paper	50-100g × 140mm
模具冷却 Mould Cooling	自来水或循环水tap water or back water
外形尺寸 Overall Dimensions	2300 × 560 × 1410mm
整机重量 weight	800kg
